

# Check list

In order for me to consider you inscribed in this course, you should make sure that you pass the following check list... *before first day is over*:

- **Have read the course information** (slides on course webpage).  
Otherwise, you don't know what is going to happen.
- **Have your picture ("mug shot") taken** (done in class Monday).  
Otherwise, we don't know who you are.
- **Have filled in the questionnaire** (on course webpage).  
Otherwise, we don't know what you know and don't know.
- **Have measured the length of the lecture table in Auditorium A.**  
Otherwise, you haven't contributed to a common course dataset.
- **Be registered on Absalon or accept invitation by me to be so.**  
Otherwise, you won't get any of the general information I write out.
- **Be able to run Python on ERDA and possibly have Python 3.6+ (and a few extra packages) running on your laptop.**  
Otherwise, you can't follow the exercises or solve problems.

I would rather not continuously be doing all of the above... thank you.
