

Bimmer

© John Hertz, 2005

(chords)

I used to have a bimmer	G	D
Back around '73	G	D
I thought we were the coming stars	Am	Em
Gene and Kathy and me	Am	D

In the rear view mirror	G	D
I could see the past	G	D
But I couldn't see the present	Am	Em
Goin' by so fast	Am	D

Refrain:

The past looks kinda rosy	Am	D
And the future's looking blue	G	Em
But when I finally get back home	C	D
I'll be younger than you	D	G

I could see the future
In the passing lane
But the view was just too clear
And it wearied my brain

So I came to the land of taxes
Lookin' for uncertainty
Got me a Fiat 127
Top speed 103

Refrain:

But the past, it still looks rosy	Am	D	
And the future still looks blue	G	Em	
But when I finally get back home	Am	Em	
I'll be younger than you	Am	D	
You know it's true	C	D	
When we get through	G	Em	
I'll be younger than you	C	D	G

Well Sandy went to Chile
And Sammy moved to Philly
Sid's still workin' on the kitchen sink
And Dave became a shrink

Saw him last year at Neuroscience
comin' out as I was comin' in
We went back inside, saw a few posters
But all we could talk about was how

Refrain:

The past, it still looks rosy
And the future still looks blue
And how when I finally get back home
I'll be younger than you
You know it's true

When we get through
I'll be younger than you

Yeah the past is lookin' rosy
And the future's looking blue
And I'll be younger than you

C	D	
G	Em	
C	D	Em
