

Enlighten Me

© John Hertz, 2005

Wanna write a little country song
Gotta be about right and wrong
And it can't be too long
Or use no fancy words

It could be about you and me
About the way we used to be
Before you set me free
Using just three chords

Refrain:

Well I hope you found Jesus
And some way to be free
If it says how in the Bible
Please won't you tell me
Or perhaps you found the Buddha
Sitting under a tree
Well if you learned the secret
Please enlighten me

(instrumental bridge)

I could sing about our first time
I think I could make it rhyme
Wait to tell about the last time
Til the very last line

(repeat refrain)

Notes:

Obviously, I didn't succeed in writing a country song. (It does use only three chords, but it doesn't mention Mamma, trucks, prison, trains, ...). But I still want to.
