Check list

In order for me to consider you inscribed in this course, you should make sure that you pass the following check list… *before first day is over*:

- **Have read the course information** (slides on course webpage). Otherwise, you don't know what is going to happen.
- **Have your picture ("mug shot") taken** (done in class Monday)**.** Otherwise, we don't know who you are.
- **Have filled in the questionnaire** (on course webpage). Otherwise, we don't know what you know and don't know.
- **Have measured the length of the lecture table in Auditorium A.** Otherwise, you haven't contributed to a common course dataset.
- **Have Python 3.6+ (and a few extra packages) running on your laptop**. Otherwise, you can't follow the exercises or solve problems.

In order not to continuously be doing the above, we will be doing all of the steps today (Monday the 19th of November 2018) and (hopefully) not thereafter!
